## Workshop Invitation

### Understanding our North Coast Soils

*A one day workshop to be presented at three venues across the Northern Rivers region during April*

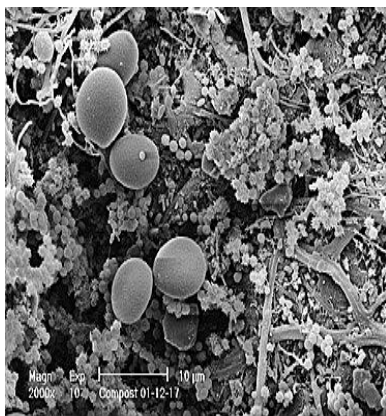

**Casino** – Thursday 6 April

**Lismore** – Friday 7 April

**Murwillumbah** – Saturday 8 April

Topics include:

- the soil environment
- the importance of soil carbon and soil moisture
- the diversity of soil organisms – the soil food web
- the role of soil biota in nutrient cycling
- the rhizosphere - interactions between plant roots and soil biota

*Management factors to enhance soil health will be covered in addition to elements of importance for soil biological function and microbial activity.*

***Registration is essential***
